7 **PRE-SUIT DISCUSSIONS**

8 26. Prior to filing this Complaint, Entropic sent a communication by physical  
9 means to Comcast on August 9, 2022, in an attempt to engage Comcast and/or its agents  
10 in good faith licensing discussions regarding Entropic's patent portfolio, including the  
11 Patents-in-Suit.<sup>3</sup> Comcast replied to the communication on October 10, 2022, asking  
12 for additional information. On December 23, 2022, Entropic sent Comcast another  
13 communication regarding a separate license to Entropic's patents for the field of the  
14 standardized networking technology commonly called MoCA, and also seeking to  
15 discuss with Comcast a typical non-disclosure agreement in order to share such  
16 information.

17 **ENTROPIC'S LEGACY AS A CABLE INNOVATOR**

18 27. Entropic Communications Inc. ("Entropic Inc."), the predecessor-in-  
19 interest to Plaintiff Entropic as to the Patents-in-Suit, was founded in San Diego,  
20 California in 2001 by Dr. Anton Monk, Itzhak Gurantz, Ladd El Wardani and others.  
21 Entropic Inc. was exclusively responsible for the development of the initial versions of  
22 the Multimedia over Coax Alliance ("MoCA") standards, including MoCA 1.0, ratified  
23 in 2006 and MoCA 1.1, ratified in 2007, and was instrumental in the development of  
24

25 the identified personnel at Comcast's corporate leadership website,  
26 <https://corporate.comcast.com/company/leadership>.

27 <sup>3</sup> The '206 Patent was not included in the list of issued Entropic patents discussed in the  
28 communication sent on August 9, 2022.

1 MoCA 2.0, ratified in 2010. It also developed Direct Broadcast Satellite (“DBS”) 2 Outdoor Unit (“ODU”) single wire technology and System-on-Chip (“SoC”) solutions 3 STBs in the home television and home video markets. Entropic was widely known in 4 the cable industry for these innovations and its foundational development of MoCA.

5 28. Under the technical guidance of Dr. Monk, Entropic Inc. grew to be 6 publicly listed on the NASDAQ in 2007. After the public listing, the company acquired 7 RF Magic, Inc. in 2007, a company specializing in DBS ODU technology and related 8 hardware.

9 29. Additional growth between 2007 and 2015 bolstered the technical 10 expertise of Entropic Inc. with respect to signal acquisition, stacking, filtering, 11 processing, and distribution for STBs and cable modems.

12 30. For years, Entropic Inc. pioneered innovative networking technologies, as 13 well as television and internet-related technologies. These technologies simplified the 14 installation required to support wideband reception of multiple channels for 15 demodulation, improved home internet performance, and enabled more efficient and 16 responsive troubleshooting and upstream signal management for cable providers. These 17 innovations represented significant advances in the field, simplified the implementation 18 of those advances, and reduced expenses for providers and customers alike.

19 **MAXLINEAR’S TRANSFER OF PATENTS TO ENTROPIC**

20 31. In 2015, MaxLinear, Inc. and MaxLinear, LLC (collectively, 21 “MaxLinear”)—leading providers of radio-frequency, analog, digital, and mixed-signal 22 semiconductor solutions—acquired Entropic Inc., as well as the pioneering intellectual 23 property developed by Dr. Monk and his team.

**B. Comcast Has, and Continues, to Willfully and Intentionally Infringe the Patents-in-Suit**

67. The Patents-in-Suit are the result of years of research and development in satellite and cable technology. These innovations are utilized by Comcast to provide enhanced and expanded services to customers, which in turn has increased revenues for Comcast while at the same time reducing costs.

68. Comcast invested in Entropic Inc. once in 2003, and again in 2006.

69. Upon information and belief, Comcast substantively reviewed and analyzed Entropic Inc.'s patents and patent applications related to the Patents-in-Suit as part of its due diligence prior to investing in Entropic Inc.

70. In addition, Comcast has willfully infringed the Patents-in-Suit in at least the following ways.

**1. The Charter Suits**

71. On information and belief, Comcast had knowledge of its infringement of certain of the Patents-in-Suit based on its awareness of the patent infringement suit filed by Entropic against Charter Communications, Inc. ("Charter") in the Eastern District of Texas, Case No. 2:22-CV-00125-JRG, on April 27, 2022. This suit against Charter asserted the '775 Patent, the '690 Patent, the '008 Patent, the '362 Patent, the '826 Patent, and the '682 Patent against Charter's provision of cable television and internet services, cable modem products and STBs.

72. On information and belief, Comcast had knowledge of its infringement of certain of the Patents-in-Suit based on its awareness of the patent infringement suit filed by Entropic against Charter in the Eastern District of Texas, Case No. 2:23-CV-00052-JRG, on February 10, 2023. This second suit against Charter asserted the '866 Patent and the '206 Patent against Charter's provision of cable television and internet services, cable modem products and STBs. The complaint was amended on October 31, 2023, to assert the '275 Patent and '438 Patent against Charter.

1           73. Both Charter and Comcast are part of the close-knit business community  
2 that is the cable industry, which is led by key industry players. These key players work  
3 collaboratively to develop new technology and programs to drive the industry forward,  
4 including through organizations like MoCA and the Society of Cable  
5 Telecommunications Engineers.

6           74. Comcast and Charter actively collaborate together, have monthly  
7 meetings across various departments, and have even collaborated together on accused  
8 technologies. Specifically, Comcast and Charter have collaborated together on Profile  
9 Management Application (“PMA”) technology and the implementation of full band  
10 capture.

11           75. Comcast’s PMA implementation infringes the ’682 Patent in substantially  
12 the same manner as Charter’s PMA implementation. Given the amount of collaboration  
13 that occurs between Charter and Comcast, Comcast was aware of the accusations  
14 against Charter’s PMA implementation.

15           76. Comcast’s implementation of remote spectrum monitoring functionality in  
16 its Proactive Network Maintenance (“PNM”) system infringes the ’008 and ’826  
17 Patents in substantially the same manner as Charter’s implementation of remote  
18 spectrum monitoring in its PNM system. Given the amount of collaboration that occurs  
19 between Charter and Comcast, Comcast was aware of the accusations against Charter’s  
20 implementation of remote spectrum monitoring in its PNM system. Additionally,  
21 Comcast collects information regarding the upstream channels as part of the operation  
22 of its network, in a similar manner as Charter. This collection of information regarding  
23 the upstream channels as part of the operation of a cable network infringes the ’690  
24 Patent.

25           77. Comcast’s usage of full band capture-enabled cable modems and STBs  
26 infringes the ’362, ’866, ’206 and ’275 Patents in substantially the same manner as  
27 Charter’s usage of full band capture-enabled cable modems and STBs. Given the  
28 amount of collaboration that occurs between Charter, Comcast and its common supplied

1 of the cable modems, STBs and underlying full band capture system-on-chips (or  
2 SoCs), Comcast was aware of the accusations against Charter's usage of full band  
3 capture-enabled cable modems and STBs.

4 78. Comcast uses cable modem termination system ("CMTS") hardware and  
5 software as part of its cable network.

6 79. Comcast and Charter also collaborate together at events for the Society of  
7 Cable Telecommunications Engineers ("SCTE"), of which both Comcast and Charter  
8 are members. Among other things, Comcast and Charter participate in panels together,  
9 share data and achievements related to SCTE, and work on peer-reviewed papers  
10 together.

11 80. Charter and Comcast also "team up" to offer streaming devices and other  
12 technology to customers. Indeed, The New York Times published an article about such  
13 a joint venture between Comcast and Charter on April 27, 2022, the very same day that  
14 the first suit against Charter was filed.

15 81. As evidenced by this article, Comcast knows that Charter utilizes  
16 technology that functions almost identically to Comcast's technology.

17 82. Among other things, Charter and Comcast utilize similar product offerings  
18 that incorporate the same technologies. Charter and Comcast purchase their products,  
19 including cable modems, STBs, and CMTS hardware and software, from the same third  
20 parties. These products utilize the same or similar SoCs and other processors and  
21 provide similar functionality. For example, both Charter and Comcast provide whole-  
22 home DVR solutions utilizing MoCA to create an in-home network over the on-  
23 premises coaxial cabling. Similarly, both Charter and Comcast utilize cable modems  
24 having Broadcom BCM3390 SoCs and STBs utilizing a combination of Broadcom full-  
25 band capture SoCs to interface with the cable network and STB SoCs to decode and  
26 display television content.

27 83. For example, one supplier of STBs, Arris, provides the DCX3600 to both  
28 Comcast and Charter. Comcast refers to the Arris DCX3600 as the Arris MX011ANM

1 or XG1-A, and Charter refers to it simply as the Arris DCX3600. An image of the  
2 circuit board included in the Arris DCX3600 is shown below, clearly showing both the  
3 DCX3600 and XG1 branding:

18  
19 84. The two Charter suits discussed herein asserted the same patents and  
20 involved largely the same technology as is at issue in this action.

21 85. Given the close business relationship between Comcast and Charter, as  
22 well as the joint ventures that Comcast was pursuing with Charter when these suits were  
23 filed against Charter, Comcast was almost certainly aware of their filings.

24 86. Upon information and belief, and based on Comcast's awareness of the  
25 substantial similarities between Comcast's and Charter's technology and products,  
26 Comcast analyzed the claims asserted against Charter, the Patents-in-Suit, and the  
27 Accused Products.  
28

1           87. Upon information and belief, Comcast then analyzed its own products’  
2 functionality in light of the patents asserted against Charter, and it confirmed that its  
3 own products were functionally identical to the Charter products accused.

4           88. Upon information and belief, Comcast monitored the ongoing prosecution  
5 of the ’362 Patent family, and therefore was aware of the U.S. Patent No. 11,381,866  
6 (the “’866 Patent”) issued on July 5, 2022, and U.S. Patent No. 11,399,206 (the “’206  
7 Patent”) issued on July 26, 2022.

8           89. Upon information and belief, Comcast analyzed its products’ functionality  
9 in light of the ’866 Patent.

10          90. Upon information and belief, Comcast analyzed its products’ functionality  
11 in light of the ’206 Patent.

12          91. Upon information and belief, Comcast thereafter determined that its  
13 products infringe the Patents-in-Suit in substantially the same manner as Charter.

14          92. Nevertheless, Comcast continued to make, sell, or offer for sell the  
15 infringing products.

16          93. Upon information and belief, Comcast requested indemnification from  
17 Comcast’s suppliers for each of the patents asserted against Charter, including the  
18 MoCA-related patents, prior to Entropic filing the current action.

19          94. Comcast’s request for indemnification evidences its knowledge of the risk  
20 that it infringed at least Entropic’s Non-SEP Patents, and that a suit similar to the  
21 Charter Suit was likely to be initiated against Comcast.

## 22           **2. The DISH and DirecTV Suits**

23          95. Entropic filed a patent infringement suit against Dish Network  
24 Corporation, DISH Network, LLC, and Dish Network Service, LLC (collectively,  
25 “Dish”) in the Eastern District of Texas, Case No. 2:22-CV-00076, on March 9, 2022,  
26 asserting infringement of three Entropic patents, including the ’008 Patent (the “Dish  
27 Suit”).  
28

1           96. Entropic filed a patent infringement suit against DirecTV, LLC, AT&T,  
2 Inc., AT&T Services, Inc., and AT&T Communications, LLC in the Eastern District of  
3 Texas, Case No. 2:22-CV-00075 on March 9, 2022, asserting infringement of three  
4 Entropic patents, including the '008 Patent (the "DirecTV Suit").

5           97. Upon information and belief, Comcast contacted RPX Corporation  
6 ("RPX") regarding the Charter Suit, Dish Suit, and DirecTV Suit after being served  
7 with the complaint in these actions. Either before or shortly after its discussions with  
8 RPX, Comcast substantively reviewed and analyzed the patents asserted in the Charter  
9 Suit, Dish Suit, and DirecTV Suit.

### 10           **3. Comcast's Relationship with MaxLinear**

11           98. Comcast has willfully infringed the Patents-in-Suit based on knowledge it  
12 gained from Patrick Tierney. Tierney, one of the named inventors of the '008 Patent  
13 and '826 Patent, now works at Comcast. Accordingly, upon information and belief,  
14 Comcast knew of the aforementioned Patents-in-Suit as early as the day Patrick Tierney  
15 was hired. For example, upon information and belief, Comcast looked at patents which  
16 named Patrick Tierney as an inventor as part of the process of determining whether to  
17 offer him employment at Comcast.

18           99. Patrick Tierney and other MaxLinear employees frequently met with  
19 Comcast and discussed the technologies of both MaxLinear and Entropic Inc. that  
20 practiced the Patents-in-Suit. Thus, Patrick Tierney was well aware of the technology  
21 and functionality of the Patents-in-Suit.

22           100. Indeed, before his employment at Comcast, Patrick Tierney often met with  
23 Comcast personnel to discuss new technology for which MaxLinear and Entropic Inc.  
24 had recently applied for or received patent protection.

25           101. For example, Patrick Tierney met with Sam Chernak of Comcast on  
26 December 20, 2012, less than a month after the '566 Patent issued. Upon information  
27 and belief, Mr. Tierney told Mr. Chernak about the '566 Patent.

1           102. As another example, Comcast met with MaxLinear to ask MaxLinear to  
2 support a low cost D3 modem on January 20, 2013, less than a month after the '681  
3 Patent issued.

4           103. In his role at Comcast, on information and belief, Patrick Tierney shared  
5 what he knew about the functionality and operation of the Patents-in-Suit with other  
6 Comcast personnel, so that Comcast could continue to create products that infringe upon  
7 the Patents-in-Suit.

8           104. Comcast also learned about the functionality of the Patents-in-Suit through  
9 other events it attended, including the 2015 International Broadcasting Convention,  
10 where MaxLinear presented information about new products and technology that  
11 implemented the Patents-in-Suit.

12           105. MaxLinear also held several business discussions with Comcast in 2015,  
13 wherein MaxLinear discussed its products and technology that implemented the  
14 Patents-in-Suit and explained how that technology could benefit Comcast's business.

15           106. Specifically, MaxLinear gave a presentation to Comcast in March 2015  
16 wherein it discussed confidential, new technology being developed by MaxLinear and  
17 Entropic Inc. MaxLinear's March 2015 presentation specifically referenced that much  
18 of this technology was covered by "[a]lmost 2000 issued and pending patents."

19           107. Finally, Comcast has been willfully infringing since at least October 2021,  
20 when it intentionally misappropriated MaxLinear's technology and related patents by  
21 disclosing that information to MaxLinear's competitor.

22           108. In 2020, Comcast began pursuing full duplex ("FDX") technology to  
23 implement DOCSIS 4.0, which was intended to enable higher speeds for both  
24 downstream and upstream communications.

25           109. However, Comcast soon realized that the only then-viable FDX  
26 architecture could not be deployed to serve the majority of Comcast's network.

27           110. Comcast turned to MaxLinear to solve this problem, as MaxLinear was a  
28 well-known innovator in the FDX space. Indeed, since at least 2016, Comcast itself

1 acknowledged that MaxLinear was the only company able to deliver viable FDX  
2 technology.

3 111. In 2020, after entering into a non-disclosure agreement, MaxLinear shared  
4 its confidential FDX technologies with Comcast in the hopes of expanding their  
5 business relationship.

6 112. On information and belief, Comcast knew that MaxLinear's disclosures  
7 regarding the FDX technology were confidential and were owned by MaxLinear,  
8 including by virtue of the non-disclosure agreement signed by Comcast, as well as the  
9 confidentiality designations MaxLinear marked its FDX disclosures with.

10 113. On information and belief, in October 2021, Comcast nevertheless took  
11 credit for MaxLinear's technology in a published article. *See* Elad Nafshi, *Announcing*  
12 *Another 10G Milestone Amidst a Flurry of Innovation*, Comcast (Oct. 14, 2021),  
13 <https://tinyurl.com/yphyu6a9>.

14 114. In September 2022, Richard Prodan, one of the Comcast employees who  
15 attended and received copies of MaxLinear's confidential presentation on the design of  
16 its FDX-amplifier solution, published an industry paper that described an FDX-  
17 amplifier design that was materially identical to the one MaxLinear developed and  
18 confidentially shared with Comcast.

19 115. On information and belief, Comcast was aware that its use of MaxLinear's  
20 FDX technology misappropriated MaxLinear's trade secrets, including based on the  
21 parties' prior business dealings, the NDA, and based on the recent counterclaims filed  
22 by MaxLinear against Comcast on December 1, 2023 in the United States District Court  
23 for the Southern District of New York, *Comcast Cable Communications LLC, et al. v.*  
24 *MaxLinear, Inc.*, Case No. 1:23-cv-04436-AKH (DE 88).

25 **4. Comcast's Willful Infringement of Specific Patents-in-Suit**

26 116. Upon information and belief, Comcast substantively reviewed and  
27 analyzed Entropic's U.S. Patent No. 8,223,775 (the "775 Patent"), duly issued on July  
28

1 17, 2012 from an application filed September 30, 2003, as part of its due diligence prior  
2 to investing in Entropic in 2006.

3 117. Accordingly, upon information and belief, no later than the day prior to its  
4 latest investment in Entropic in 2006, Comcast knew or had every reason to know that  
5 Entropic owned the '775 Patent. Because Comcast knew of the '775 Patent and  
6 substantively reviewed its claims, Comcast began willfully infringing the '775 Patent  
7 no later than the dates it began offering its cable modem products and services, having  
8 knowledge that such use and deployment infringed the '775 Patent.

9 118. As addressed above, Comcast has willfully infringed at least the '362  
10 patent, the '826 patent, and the '206 patent through its knowledge gained from the  
11 Charter litigation, and was aware of (and substantively analyzed its infringement of) the  
12 other Patents-in-Suit no later than the letter sent by Entropic in August 2022.

13 119. Comcast has also willfully infringed at least the '682 Patent as evidenced  
14 by its own patents that cite to U.S. Patent No. 9,419,858 (the '858 Patent"), which is the  
15 ultimate parent of the '682 Patent. Specifically, Comcast's patents including U.S.  
16 Patent No. 11,191,087; U.S. Patent No. 10,582,515; U.S. Patent No. 11,758,574 cite the  
17 '858 Patent.

18 120. Comcast's reference to the '858 Patent, which is closely related to and  
19 involves similar technology and functionality as the '682 Patent, evidences Comcast's  
20 awareness that it infringes upon '682 Patent.

21 121. Further, Comcast filed an application for U.S. Patent No. 9,178,765 on July  
22 23, 2013, in the same month that the application for the '682 Patent was filed. On  
23 information and belief, Comcast was aware of the '682 Patent based on the investigation  
24 it undertook during the application and prosecution process for U.S. Patent No.  
25 9,178,765. Thus, Comcast has willfully infringed the '682 Patent since at least July 23,  
26 2013.

122. Accordingly, Comcast either knew about the Patents-in-Suit, or alternatively engaged in a scheme to be willfully blind to the existence of the Patents-in-Suit.

**C. Comcast Willfully Infringed, and Continues to Infringe, Entropic's MoCA Patents<sup>7</sup>**

123. Comcast invested in Entropic Inc. once in 2003, and again in 2006.

124. Upon information and belief, Comcast substantively reviewed and analyzed Entropic Inc.'s patents and patent applications related to the Entropic Inc.'s MoCA standard patents as part of its due diligence prior to investing in Entropic Inc.

125. Upon information and belief, the patents and patent applications that Comcast analyzed prior to investing in Entropic include at least the following patents: U.S. Patent No. 7,295,518 (the "518 Patent"), duly issued on November 13, 2007 from an application filed December 18, 2002, an application filed August 19, 2002 and, *inter alia*, a provisional application filed August 30, 2001; U.S. Patent No. 7,594,249, duly issued on September 22, 2009 from an application filed July 21, 2001, and a provisional application filed May 4, 2001; U.S. Patent No. 7,889,759 (the "759 Patent"), duly issued on February 15, 2011 from an application filed July 12, 2004, an application filed August 29, 2002, and, *inter alia* a provisional application filed August 30, 2001; U.S. Patent No. 8,085,802, duly issued on December 27, 2011 from an application filed December 2, 2005, and a provisional application filed December 2, 2004; U.S. Patent No. 8,631,450, duly issued on January 14, 2014, from an application filed September 19, 2005 and, *inter alia*, a provisional application filed December 2, 2004; U.S. Patent No. 8,621,539, duly issued on December 31, 2013 from an application filed September 29, 2005 and, *inter alia*, a provisional application filed December 2, 2004; U.S. Patent No. 10,257,566, duly issued on April 9, 2019 from an application filed February 7,

---

<sup>7</sup> The MoCA Patents are set forth in Entropic's concurrently filed action, *Entropic v. Comcast, et al.*, Case No. 2:23-cv-1048-JWH-KES (C.D. Cal. 2023).

1 2017, an application filed September 19, 2005, and *inter alia*, a provisional application  
2 filed December 2, 2004 (collectively, the “Pre-Investment MoCA Patents”). On  
3 information and belief, Comcast knew, based on its own analysis and also potentially  
4 statements from Entropic itself, that these patents were standard-essential to MoCA,  
5 such that practicing the MoCA standard would infringe these patents.

6 126. Upon information and belief, no later than the day prior to its latest  
7 investment in Entropic in 2006, Comcast knew or had every reason to know that  
8 Entropic owned the Pre-Investment MoCA Patents related to the MoCA technology  
9 such that deployment of MoCA standard-compliant devices would infringe patents  
10 owned by Entropic.

11 127. Upon information and belief, no later than the day prior to its latest  
12 investment in Entropic in 2006, any reasonable commercial party in Comcast’s position,  
13 with Comcast’s knowledge, would know that deployment of MoCA standard-compliant  
14 devices would infringe on the Pre-Investment MoCA Patents owned by Entropic. On  
15 information and belief, Comcast continued to monitor and analyze Entropic’s MoCA-  
16 related patents and was aware of later-filed patents that are standard-essential to MoCA  
17 simply due to the importance of MoCA to Comcast’s business and Comcast’s later  
18 involvement as a board member of MoCA.

19 128. No later than 2010 and continuing to the present, Comcast has used  
20 products that provide signals, programming and content utilizing a data connection  
21 carried over a coaxial cable network in accordance with the MoCA standards, including  
22 at least the Arris DCX3200, DCX3400, DCX3500, XG1-A, XG1v3, XG1v4, XG2v2,  
23 Arris MR150CNM, Pace PR150BNM, Pace PX032ANI, Pace PXD01ANI, Samsung  
24 SR150BNM, and similarly operating devices. Because Comcast was already aware of  
25 Entropic’s Pre-Investment MoCA patents and knew that those patents were standard-  
26 essential, Comcast knew that its use of these devices would directly infringe the Pre-  
27 Investment MoCA patents. Despite this knowledge, Comcast willfully infringed the  
28 Pre-Investment Patents beginning no later than 2010.

1           **1. Comcast's Involvement in MoCA**

2           129. Upon information and belief, Comcast was involved with and/or a member  
3 of MoCA from the earliest days of the MoCA, through at least August 2019. Indeed,  
4 Comcast was a member of the MoCA board of directors.<sup>8</sup>

5           130. As an early and active member of MoCA, Comcast helped to develop the  
6 MoCA standard, and therefore would have been knowledgeable about the technology  
7 essential to the practice of that standard.

8           131. Upon information and belief, Comcast was aware that Entropic, its close  
9 partner in the endeavor to grow and developed the MoCA standard, owned patents for  
10 its technology that was MoCA-standard-compliant.<sup>9</sup>

11           132. Specifically, Comcast would have been aware of at least the '249 Patent,  
12 which was filed on July 21, 2001; the '518 Patent, which was filed on December 18,  
13 2002; the '759 Patent, which was filed on July 24, 2004; the '450 Patent, which was  
14 filed on September 19, 2005; the '539 Patent, which was filed on September 29, 2005;  
15 and the '802 Patent, which was filed on December 2, 2005. These Patents, all of which  
16 are essential to the practice of the MoCA standard, were filed during the time that  
17 MoCA was being developed by Entropic Inc., Comcast, and others.

18           133. Upon information and belief, no later than the day prior to its latest  
19 investment in Entropic in 2006, any reasonable commercial party in Comcast's position,  
20 with Comcast's knowledge, would perceive a substantial likelihood that deployment of  
21 MoCA standard-compliant devices would infringe on Pre-Investment Patents owned by  
22 Entropic.

1           134. On information and belief, Comcast continued to monitor and analyze  
2 Entropic's MoCA-related patents and was aware of later-filed patents that are standard-  
3 essential to MoCA simply due to the importance of MoCA to Comcast's business and  
4 Comcast's later involvement as a board member of the MoCA.

5           135. As a member of the MoCA, Comcast was well aware that Entropic, the  
6 owner of the MoCA Patents, was the leading contributor of technology to the standards  
7 promulgated by MoCA, which are implicated by the claims of patent infringement  
8 herein. Indeed, Comcast was aware that, at the time, Entropic was the only entity  
9 capable of developing the technology necessary to practice the MoCA standard.

10           136. Upon information and belief, Comcast knew that MoCA standard-  
11 compliant devices had tremendous success, given the public success through Verizon  
12 Wireless's deployment of Fios.

13           137. Comcast also willfully infringed the '518 Patent by virtue of its  
14 involvement in MoCA. On October 28, 2008, Anton Monk, the Vice President of  
15 Technology for Entropic Inc., disclosed Entropic Inc.'s ownership of the '518 Patent  
16 via email to the MoCA Board of Directors.

17           138. Attached to this email was a document entitled "Disclosure of Intellectual  
18 Property," which represents to the MoCA Board of Directors that the '518 Patent was  
19 essential to the practice of the MoCA standard.

20           139. On information and belief, Comcast was a member of the Board at the time  
21 and therefore received this notice from Entropic.

22           140. Comcast therefore had direct notice of the '518 Patent and that the '518  
23 Patent is essential to the practice of the MoCA standard.

24           141. The '759 Patent is a continuation-in-part of the '518 Patent. Given the  
25 close relationship between the '759 Patent and the '518 Patent, Comcast also was on  
26 notice that the '759 Patent was owned by Entropic Inc. and is essential to the practice  
27 of the MoCA standard.

1           142. At the very least, Comcast engaged in a scheme to be willfully blind to the  
2 existence of the '759 Patent and the fact that it is essential to the practice of MoCA  
3 standard based on its relation to the '518 Patent.

## 4           **2. Comcast's Relationship with MaxLinear**

5           143. Comcast and MaxLinear, Inc. were engaged in a longstanding commercial  
6 relationship for years. Upon information and belief, Comcast knew that MaxLinear, Inc.  
7 was a member of MoCA since at least 2011.

8           144. Comcast and MaxLinear, Inc. were both board members of MoCA from at  
9 least 2015 through August 2019. By virtue of Comcast's participation in MoCA and its  
10 ongoing, extensive use of MoCA standards, on information and belief, Comcast  
11 monitored and reviewed the publication and issuance of patents that would be standard-  
12 essential, including MaxLinear and Entropic Inc. patents. Because Comcast was using  
13 the devices that practiced the MoCA standards, Comcast willfully infringed each  
14 MaxLinear and Entropic Inc. patent that was standard-essential to MoCA no later than  
15 shortly after the issuance of those patents. To the extent Comcast did not engage in  
16 such review, it constitutes willful blindness to patent infringement due to Comcast's  
17 knowledge of the foundational role and contributions of Entropic Inc. and MaxLinear  
18 to the MoCA standards.

19           145. At least as early as January 1, 2020, Comcast knew that MaxLinear owned  
20 patents that were essential to practicing the technology embodied in one or more  
21 standards promulgated by MoCA.

22           146. Comcast knew that MaxLinear acquired Entropic Inc. and its patents in  
23 2015.<sup>10</sup> Because Comcast already knew it was willfully infringing patents owned by  
24 Entropic Inc., Comcast therefore knew that it was willfully infringing patents that were  
25 standard-essential to MoCA that now were owned by MaxLinear no later than 2015.

1 147. No later than the day prior to signing the VSA with MaxLinear, Inc.,  
2 Comcast knew or had every reason to know that MaxLinear, Inc. owned patents related  
3 to the MoCA technology such that deployment of MoCA standard-compliant devices  
4 would infringe on patents owned by MaxLinear. To the extent Comcast did not  
5 investigate whether it infringed such patents, Comcast was willfully blind to its  
6 infringement of patents owned by its long-time business partner, MaxLinear.

21 businesses, technologies that Comcast uses and deploys.

22 151. Despite this knowledge, Comcast continued to use and deploy devices  
23 practicing the MoCA standards and therefore willfully infringed patents owned by  
24 MaxLinear, including the MoCA Patents.

25 152. Accordingly, Comcast either knew about the MoCA Patents, or  
26 alternatively engaged in a scheme to be willfully blind to the existence of the MoCA  
27 Patents. Comcast therefore willfully infringed at least the Pre-Investment Patents and  
28

1 the later-issued MoCA patents no later than the day prior to [REDACTED]  
2 [REDACTED]

3 153. Upon information and belief, in addition to the knowledge as set forth  
4 above, one of the named inventors of the '008 Patent and '826 Patent, as set forth in  
5 Entropic's concurrently filed action *Entropic v. Comcast, et al.*, No. 2:23-cv-1050-  
6 JWH-KES, was Patrick Tierney. Mr. Tierney now works at Comcast; thus, upon  
7 information and belief, Comcast knew of the aforementioned MoCA Patents as early as  
8 the day Mr. Tierney was hired.

14 [REDACTED]

15 155. Comcast also willfully infringed two other MaxLinear patents no later than  
16 June 9, 2022. Specifically, during prosecution of Comcast's 17/201,189 patent  
17 application, the patent examiner cited to MaxLinear, Inc.'s MoCA-related U.S. Patent  
18 No. 10,075,333 (the "'333 Patent") in a non-final rejection, which Comcast received on  
19 June 9, 2022. Additionally, the '116 Patent was cited during prosecution of Comcast's  
20 patent application 16/777,622. The examiner cited MaxLinear, Inc.'s MoCA-related  
21 U.S. Patent No. 10,285,116 ("'116 Patent")'s publication in a non-final rejection, which  
22 Comcast received on October 16, 2020. On information and belief, no later than June  
23 9, 2022, Comcast substantively reviewed and analyzed the '333 Patent. On information  
24 and belief, no later than October 16, 2020, Comcast substantively reviewed and  
25 analyzed the '116 Patent. On information and belief, Comcast has willfully infringed  
26 the '333 and '116 Patents beginning no later than June 9, 2022 and October 16, 2020,  
27 respectively.  
28

1           **3. The ViXS Suit**

2           156. Entropic filed a patent infringement suit against ViXS Systems, Inc. and  
3 ViXS USA, Inc. in the Southern District of California, Case No. 13-CV-1102-  
4 WQHBGS (“the ViXS Suit”), on May 8, 2013, asserting infringement of the ’759 Patent  
5 and the ’518 Patent. Both patents are essential to the standards developed and  
6 promulgated by MoCA.

7           157. Upon information and belief, as a member of MoCA, Comcast analyzed  
8 the claims in the ViXS Suit and the patents asserted in that case, which included the  
9 ’759 and ’518 Patents.

10          158. Upon information and belief, Comcast analyzed its products’ functionality  
11 in light of the patents asserted in the ViXS Suit.

12          159. Because Comcast already was using and deploying devices practicing the  
13 MoCA standards (and continued to do so), Comcast willfully infringed the ’759 and  
14 ’518 Patents no later than May 8, 2013, after substantively analyzing the complaint and  
15 the patents asserted in the ViXS suit.

16          160. As addressed above, Comcast has willfully infringed at least the ’759  
17 Patent and the ’518 Patent through its knowledge gained from the ViXS Suit, and was  
18 aware of (and substantively analyzed its infringement of) the other MoCA Patents no  
19 later than the letter sent by Entropic in August 2022.

20          161. As a member of MoCA, Comcast was well aware that Entropic Inc., the  
21 owner of the MoCA Patents in the ViXS Suit, was the leading contributor of technology  
22 to the standards promulgated by MoCA, which are implicated by the claims of patent  
23 infringement in the ViXS Suit.

**D. Comcast has willfully infringed each of the Patents-in-Suit through its post-suit conduct.<sup>11</sup>**

162. Despite having knowledge of its infringement of the Patents-in-Suit by virtue of Entropic's original Complaint, its First Amended Complaint, and its infringement contentions, Comcast continues to make, use, sell, or offer for sale the Accused Products. Thus, Comcast continues to willfully infringe the Patents-in-Suit.

163. Further, on December 1, 2023, MaxLinear, Inc. filed a Counterclaim against Comcast in the Southern District of New York ("SDNY") containing detailed allegations of Comcast's misappropriation of MaxLinear's trade secrets. These allegations shed further light on Comcast's willful infringement of the Patents-in-Suit.

164. Even if Comcast had not willfully infringed the Patents-in-Suit, MaxLinear, Inc. provided notice of termination of the VSA to Comcast on May 18, 2023, and the VSA is therefore no longer in effect.

**1. Original Complaint**

165. Before the filing of this Second Amended Complaint, on February 16, 2023, Comcast accepted service of Entropic's original Complaint alleging infringement of the same Patents-in-Suit. See DE 1. Entropic hereby incorporates its original Complaint into this Second Amended Complaint by reference.

166. Entropic's original Complaint specifically described the infringing nature of the Accused Products, which are the same as those described herein. Further, the original complaint set forth detailed allegations of how each of the Patents-in-Suit was infringed by one of or more of the Accused Products.

---

<sup>11</sup> Entropic has filed a motion for leave to supplement its complaint with the allegations contained in Section E herein contemporaneously with this Second Amended Complaint. This motion requests leave to include allegations of events that occurred after the filing of the original complaint, and it includes a redlined copy of the proposed supplemental pleading to Entropic's First Amended Complaint, consistent with this Court's Standing Order.

1 167. Comcast thereafter analyzed Entropic's allegations of infringement and  
2 has indeed engaged in substantive discussions with Entropic related to Entropic's  
3 infringement allegations.

4 168. Indeed, after Entropic's Complaint was filed, on information and belief,  
5 Comcast again sought indemnification from its suppliers for Entropic's claims.

6 169. Thus, Comcast was on notice of the basis for Entropic's infringement  
7 claims and sought protection for those claims from its suppliers. On information and  
8 belief, Comcast could not have stated grounds for indemnification by specific suppliers  
9 unless it had knowledge of the basis for Entropic's infringement claims, as well as the  
10 specific products that were being accused.

11 170. Thus, Comcast has been aware that it infringed the Patents-in-Suit since  
12 the service of Entropic's original Complaint, on February 16, 2023.

## 13 **2. First Amended Complaint**

14 171. Before the filing of this Second Amended Complaint, on June 5, 2023,  
15 Comcast was served with Entropic's First Amended Complaint alleging infringement  
16 of the same Patents-in-Suit. *See* DE 63. Entropic hereby incorporates its First Amended  
17 Complaint into this Second Amended Complaint by reference.

18 172. Even more so than its original Complaint, Entropic's First Amended  
19 Complaint set forth specific allegations of Comcast's infringement of each of the  
20 Patents-in-Suit. Entropic included reference to particular patents that Comcast willfully  
21 infringed based on its use of particular technology.

22 173. Comcast thereafter analyzed Entropic's allegations of infringement and  
23 has indeed engaged in substantive discussions with Entropic related to Entropic's  
24 infringement allegations.

25 174. Thus, Comcast has been aware that it infringed Patents-in-Suit since the  
26 service of Entropic's original Complaint, on June 5, 2023.

## 27 **3. Entropic's Infringement Contentions**

28

1 175. Further, Entropic's infringement contentions, served on September 15,  
2 2023, provided Comcast with additional notice of infringement. Entropic hereby  
3 incorporates its infringement contentions into this Second Amended Complaint by  
4 reference.

5 176. Entropic's infringement contentions set forth Entropic's infringement  
6 positions in detail, and they include charts setting forth how each Accused Product  
7 specifically infringed each Asserted Patent.

8 177. In particular, Entropic identified how Comcast's development and use of  
9 a PMA system that generates and transacts D3.1 downstream (DS) profiles infringes  
10 upon Entropic's '682 Patent.

11 178. Comcast thereafter analyzed the infringement contentions and has engaged  
12 in thorough discussions with Entropic regarding the substance of these contentions.

13 179. Thus, Comcast has been aware that it infringed Patents-in-Suit since at  
14 least September 15, 2023.

15 180. To date, Comcast has continued its wrongful and willful use of the Patents-  
16 in-Suit, and has further continued its attempts to shield itself from liability for its  
17 wrongful use thereof.

18 181. Comcast's continued sale of the Accused Products despite its knowledge  
19 of the infringement set forth in Entropic's original Complaint, Second Amended  
20 Complaint, and Entropic's infringement contentions demonstrates its intent to willfully  
21 infringe the Patents-in-Suit.

#### 22 **4. MaxLinear's SDNY Counterclaim**

23 182. On December 1, 2023, MaxLinear, Inc. filed a Counterclaim against  
24 Comcast, alleging that Comcast breached the nondisclosure agreement (the "NDA") it  
25 entered into with MaxLinear, Inc. and misappropriated MaxLinear, Inc.'s trade secrets.  
26 See Comcast Cable Communications Management, LLC, et al. v. MaxLinear, Inc., Case  
27 No. 1:23-cv-04436-AKH, DE 88 (S.D.N.Y. Dec. 1, 2023). This Counterclaim is hereby  
28 incorporated into this Second Amended Complaint by reference.

1 183. In its Counterclaim, MaxLinear, Inc. alleges that Comcast intentionally,  
2 and in violation of the NDA, capitalized off of MaxLinear's breakthrough FDX  
3 technology by first convincing MaxLinear to disclose that technology to Comcast, and  
4 then by taking credit for technology and divulging the information it learned to  
5 MaxLinear's competitor.

6 184. Specifically, Comcast knowingly published aspects of MaxLinear's FDX  
7 amplifier design as its own through its employee, Richard Prodan; disclosed the  
8 amplifier design to MaxLinear's competitor; and paid the competitor to create a  
9 functionally identical amplifier for Comcast.

10 185. MaxLinear goes on to allege that, while Comcast has previously hid behind  
11 Section 7.3 of the VSA—an agreement which Comcast itself drafted—Comcast's  
12 knowing misappropriation of MaxLinear's FDX-amplifier trade secret technology has  
13 rendered this provision irrelevant.

21 **JURISDICTION AND VENUE**

22 189. This Court has subject matter jurisdiction pursuant to 28 U.S.C. §§ 1331  
23 and 1338(a) because the claims herein arise under the patent laws of the United States,  
24 35 U.S.C. § 1 *et seq.*, including 35 U.S.C. § 271.

25 190. Venue in this District is proper pursuant to 28 U.S.C. § 1400(b), because  
26 Comcast has regular and established places of business in this District. The defendants,  
27 by themselves and/or through their agents, have committed acts of patent infringement  
28

1 within the State of California and within this District by using, selling, offering for sale,  
2 and/or leasing various telecommunication services products and services.

3 191. This Court has general personal jurisdiction over Comcast Corp. because  
4 it conducts systematic and regular business within the State of California by, *inter alia*  
5 providing cable television, internet, and phone services to businesses and residents  
6 throughout the state. Comcast Corp.'s website states that, "Comcast is deeply  
7 committed to California, where our nearly 5,000 employees serve more than 3 million  
8 customers throughout the state."<sup>12</sup>

9 192. Upon information and belief, Comcast Management has a regular and  
10 established place of business in the State of California including at least at 3055  
11 Comcast Place, Livermore, California 94551.

12 193. The Court has personal jurisdiction over Comcast Corp., Comcast  
13 Communications and Comcast Management because they have committed acts of  
14 infringement within the State of California and within this District through, for example,  
15 providing through their wholly owned subsidiaries, "Comcast" and "Xfinity" branded  
16 products and services, including, Xfinity set top boxes ("STBs") and Xfinity digital  
17 video, audio, and other content services to customers. Comcast provides cable television  
18 and internet services ("Accused Services") via the lease, sale, and/or distribution of  
19 cable modems and set top boxes both online and from Comcast stores in this District.  
20 For example, Comcast has and continues to sell, lease, and/or distribute the Technicolor  
21 TC8717 cable modem, Technicolor CGM4140 cable modem, Technicolor CGM4331  
22 cable modem, and products that operate in a similar manner ("Accused Cable Modem  
23 Products"), as well as the Arris AX013ANC STB, Arris AX013ANM STB, Arris

5 194. Upon information and belief, Comcast Corp., Comcast Communications,  
6 and Comcast Management, by themselves and/or through their agents, offer various  
7 telecommunication services throughout the United States. Comcast operates and  
8 maintains a nationwide television and data network through which it sells, leases, and  
9 offers for sale products and services, including the Accused Services, Accused Cable  
10 Modem Products and Accused Set Top Products, to businesses, consumers, and  
11 government agencies. Through its subsidiaries, Comcast Corp. offers to sell, sells, and  
12 provides “Comcast” and “Xfinity” branded products and services, including cable  
13 modems, set top boxes, and digital video, audio, and other content services to  
14 customers. Subscribers to Comcast’s television services receive one or more receivers  
15 and/or set-top boxes within this District. Subscribers to Comcast’s internet services  
16 receive one or more cable modems within this District.

17 195. Upon information and belief, those services are provided through and  
18 using the Accused Cable Modem Products and Accused Set Top Products.

19 196. Upon information and belief, Comcast Corp., Comcast Communications,  
20 and Comcast Management, by themselves and/or through their agents, Comcast Santa

24 <sup>13</sup> Entropic provided its initial infringement contentions for the ’775, ’690, ’008, ’362,  
25 ’826, ’682, ’866, and ’206 Patents on September 15, 2023. Entropic provided its initial  
26 infringement contentions for the ’438 and ’275 Patents on November 3, 2023. Entropic  
27 has revised this Second Amended Complaint to reflect the initial infringement  
28 contentions, which include references to certain documents provided in discovery to  
Comcast by Entropic.

1 including, for example, at the Xfinity by Comcast stores located in this District at 685  
2 East Betteravia Rd., Santa Maria, California 93454; and 1145 N. H Street, Suite B,  
3 Lompoc, California 93436. Comcast holds out these locations as its own through the  
4 use of branding on the locations themselves.

5 197. Comcast lists these Xfinity by Comcast stores on its website and holds  
6 them out as places where customers can obtain the Accused Services, Accused Cable  
7 Modem Products and Accused Set Top Products.

8 198. Upon information and belief, one or more of the defendants owns and/or  
9 leases the premises where these Xfinity by Comcast stores are located.

10 199. Upon information and belief, these Xfinity by Comcast stores are staffed  
11 by persons directly employed by Comcast, many of whom live in this District.

12 200. Upon information and belief, one or more of the defendants has engaged  
13 in regular and established business at physical places within this District such as at these  
14 two Xfinity by Comcast stores.

15 201. Upon information and belief, Comcast employs and/or contracts with  
16 persons and directs them to install, service, repair, and/or replace equipment, as  
17 appropriate, in this District.

18 202. Upon information and belief, in each of these stores and/or service centers,  
19 Comcast owns and stores equipment such as cable modems and set top boxes and  
20 demonstrates services provided via those products to Comcast customers.

21 203. Comcast has adopted and ratified the Comcast and Xfinity-branded  
22 locations identified in this District. The Comcast website advertises Comcast service  
23 packages available from Comcast-authorized retailers in this District, and prospective  
24 employees can find Comcast job listings in this District. Furthermore, the “corporate”  
25 section of Comcast’s main website has a section containing “Special Information  
26 Regarding California Residents’ Privacy Rights,” which demonstrates that Comcast is  
27 purposefully holding itself out as providing products and services in California.  
28

1           204. Upon information and belief, Comcast Corp., and/or Comcast  
2 Communications, by themselves and/or through their agent, Comcast Management,  
3 provides the Accused Services throughout the United States and in this District.

4           205. Upon information and belief, Comcast Corp. and/or Comcast  
5 Management, by themselves, and/or through their agent, Comcast Communications,  
6 sells, and offers for sale, and provides the Accused Services, the Accused Cable Modem  
7 Products and the Accused Set Top Products throughout the United States and in this  
8 District.

9           206. The Accused Services are available for subscription from various physical  
10 stores, including those at 685 East Betteravia Rd., Santa Maria, California, 93454; and  
11 1145 N. H Street, Suite B, Lompoc, California 93436.

12           207. The devices, including the Accused Cable Modem Products and the  
13 Accused Set Top Products provided by Comcast to supply the Accused Services, are  
14 provided to customers in this District and may be obtained by customers from physical  
15 locations in this District, including those at 685 East Betteravia Rd., Santa Maria,  
16 California, 93454; and 1145 N. H Street, Suite B, Lompoc, California 93436.

17           208. Venue is further proper because Comcast has committed and continues to  
18 commit acts of patent infringement in this District, including making, using, offering to  
19 sell, and/or selling Accused Services, Accused Cable Modem Products and Accused Set  
20 Top Products in this District, and/or importing the Accused Cable Modem Products and  
21 Accused Set Top Products into, and thereafter providing Accused Services in, this  
22 District, including by Internet sales and sales via retail and wholesale stores.  
23 Furthermore, for example, Comcast deploys Accused Cable Modem Products and  
24 Accused Set Top Products to many thousands of locations (e.g., customer premises) in  
25 this District and subsequently, by means of those instrumentalities, uses the claimed  
26 inventions at those locations in this District. Comcast infringes by inducing and  
27 contributing to acts of patent infringement in this District and/or committing at least a  
28 portion of any other infringement alleged herein in this District.

209. Comcast continues to conduct business in this District, including the acts and activities described in the preceding paragraph.

**COUNT I**

**(Infringement of the '775 Patent)**

210. Entropic incorporates by reference each allegation of the paragraphs above as if fully set forth herein.

211. Entropic served infringement contentions which included a claim chart for the '775 Patent on September 15, 2023.

212. The '775 Patent duly issued on July 17, 2012 from an application filed September 30, 2003.

213. Entropic owns all substantial rights, interest, and title in and to the '775 Patent, including the sole and exclusive right to prosecute this action and enforce the '775 Patent against infringers and to collect damages for all relevant times.

214. The '775 Patent generally describes a partitioned cable modem that performs cable modem functions and data and home networking functions. Functionally partitioning a cable modem to perform cable modem functions and data and home networking functions enables a cable modem to incorporate a variety of enhanced functions. A true and accurate copy of the '775 Patent is attached hereto as Exhibit 1.

215. The '775 Patent is directed to patent-eligible subject matter pursuant to 35 U.S.C. § 101.

216. The '775 Patent is valid and enforceable, and presumed as such, pursuant to 35 U.S.C. § 282.

217. Comcast deploys one or more of the Accused Cable Modem Products in connection with operating and providing the Accused Services.

218. The Accused Cable Modem Products deployed by Comcast to customer premises remain the property of Comcast while deployed.

219. The Accused Cable Modem Products operate while deployed in a manner controlled and intended by Comcast.

1           220. As set forth in the infringement contentions served on Comcast on  
2 September 15, 2023 (attached hereto as Exhibit 2),<sup>14</sup> Comcast has directly infringed and  
3 is infringing at least Claims 18 and 19 of the '775 Patent by using, importing, selling,  
4 and/or offering for sale the Accused Cable Modem Products and/or the Accused  
5 Services.

6           221. Each aspect of the functioning of the Accused Cable Modem Products  
7 described in the claim chart operates while deployed to customer premises in a manner  
8 controlled and intended by Comcast.

9           222. Comcast provides no software, support, or other facility to customers to  
10 modify any aspect of the functioning described in the claim chart of the Accused Cable  
11 Modem Products while deployed to customer premises.

12           223. Comcast directly infringes at least Claims 18 and 19 of the '775 Patent by  
13 using, importing, selling, and/or offering for sale the Accused Cable Modem Products  
14 (for example, the Technicolor CGM4140 cable modem) and/or the Accused Services  
15 (for example, utilizing cable modem functions).

16           224. The use of the Accused Cable Modem Products by Comcast to, for  
17 example, demonstrate products in brick-and-mortar stores at 685 East Betteravia Rd.,  
18 Santa Maria, California, 93454; and 1145 N. H Street, Suite B, Lompoc, California  
19 93436, or to, for example, test those products, constitute acts of direct infringement of  
20 at least Claims 18 and 19 of the '775 Patent.

4           227. Comcast has known of or has been willfully blind to the '775 Patent since

12          230. Comcast has known of or has been willfully blind to the '775 Patent since  
13 no later than the day before investing in Entropic Inc. in or about 2006.

14          231. Comcast has known of the '775 Patent no later than its receipt of Entropic's  
15 communication sent to Comcast on August 9, 2022.

16          232. Comcast has been aware that it infringes the '775 Patent since well before,  
17 and no later than the date of, its receipt of Entropic's August 9, 2022 communication,  
18 attached as Exhibit 17. Since obtaining knowledge of the '775 Patent and its infringing  
19 activities, Comcast has failed to cease its infringing activities.

20          233. Customers and subscribers of Comcast infringe at least Claims 18 and 19  
21 of the '775 Patent by using the claimed system, at least during the use of the Accused  
22 Cable Modem Products.

23          234. Comcast actively induces customers' direct infringement. For example,  
24 Comcast actively induces infringement of at least Claims 18 and 19 of the '775 Patent  
25 by providing the Accused Cable Modem Products to Comcast customers with specific  
26 instructions and/or assistance (including installation) regarding the use of the Accused  
27 Cable Modem Products to infringe the '775 Patent in accordance with the ordinary  
28 course of operation through the provision of the Accused Services. For at least the

1 above-listed reasons, Comcast aids, instructs, supports, and otherwise acts with the  
2 intent to cause an end user to use the Accused Cable Modem Products to infringe at  
3 least Claims 18 and 19 of the '775 Patent.

4 235. Comcast contributes to the customers' direct infringement. Comcast  
5 provides apparatuses, namely the Accused Cable Modem Products, that are used by  
6 customers to directly infringe at least Claims 18 and 19 of the '775 Patent.

7 236. The Accused Cable Modem Products have no substantial noninfringing  
8 uses. When an end user uses the Accused Cable Modem Products to receive the Accused  
9 Services, the end user directly infringes at least Claims 18 and 19 of the '775 Patent.  
10 The Accused Cable Modem Products are especially made or especially adapted for use  
11 in an infringing manner.

12 237. Comcast's inducement of, and contribution to, the direct infringement of  
13 at least Claims 18 and 19 of the '775 Patent is continuous and ongoing through acts  
14 such as providing the Accused Cable Modem Products to Comcast customers, which  
15 enables those customers to receive the Accused Services; Comcast's provision of the  
16 Accused Services; and technical assistance provided by Comcast for equipment it  
17 provides to its customers in support of the provision of the Accused Services.

18 238. Comcast's infringement of the '775 Patent is, has been, and continues to  
19 be willful, intentional, deliberate, and/or in conscious disregard for Entropic's rights  
20 under the patent.

21 239. Entropic has been damaged as a result of the infringing conduct alleged  
22 above. Comcast is liable to Entropic in an amount that compensates Entropic for  
23 Comcast's infringement, which by law cannot be less than a reasonable royalty, together  
24 with interest and costs as fixed by this Court under 35 U.S.C. § 284.

25 240. Entropic is aware of no obligation to mark any instrumentality with the  
26 '775 Patent in accordance with 35 U.S.C. § 287.

**COUNT II**

**(Infringement of the '690 Patent)**

241. Entropic incorporates by reference each allegation above as if fully set forth herein.

242. Entropic served infringement contentions which included a claim chart for the '690 Patent on September 15, 2023.

243. The '690 Patent duly issued on October 9, 2012 from an application filed December 10, 2009, and, *inter alia* a provisional application filed May 19, 2009 and a provisional application filed December 15, 2008.

244. Entropic owns all substantial rights, interest, and title in and to the '690 Patent, including the sole and exclusive right to prosecute this action and enforce the '690 Patent against infringers and to collect damages for all relevant times.

245. The '690 Patent generally describes the process of generating probe transmissions in response to a request from a receiving node of a network, wherein the probe request specifies a plurality of parameters that specify content payload of the probe transmission, and a second node to receive the probe transmission, which enhances flexibility and therefore, improves the receiving node's ability to efficiently recognize the precise form of the transmitted probe. A true and accurate copy of the '690 Patent is attached hereto as Exhibit 3.

246. The '690 Patent is directed to patent-eligible subject matter pursuant to 35 U.S.C. § 101.

247. The '690 Patent is valid and enforceable, and presumed as such, pursuant to 35 U.S.C. § 282.

248. Comcast deploys one or more of the Accused Cable Modem Products in connection with operating and providing the Accused Services.

249. The Accused Cable Modem Products deployed by Comcast to customer premises remain the property of Comcast while deployed.

1           250. The Accused Cable Modem Products operate while deployed in a manner  
2 controlled and intended by Comcast.

3           251. As set forth in the infringement contentions served on Comcast on  
4 September 15, 2023 (attached hereto as Exhibit 4),<sup>15</sup> Comcast has directly infringed  
5 and is infringing at least Claims 7 and 8 of the '690 Patent by using, importing, selling,  
6 and/or offering for sale the Accused Cable Modem Products and/or the Accused  
7 Services.

8           252. Each aspect of the functioning of the Accused Cable Modem Products  
9 described in the claim chart operates while deployed to customer premises in a manner  
10 controlled and intended by Comcast.

11           253. Comcast provides no software, support, or other facility to customers to  
12 modify any aspect of the functioning described in the claim chart of the Accused Cable  
13 Modem Products while deployed to customer premises.

14           254. Comcast directly infringes at least Claims 7 and 8 of the '690 Patent by  
15 using, importing, selling, and/or offering for sale the Accused Cable Modem Products  
16 (for example, the Technicolor CGM4140 cable modem) and/or the Accused Services  
17 (for example, performing bidirectional communication with cable modems).

18           255. The use of the Accused Services by Comcast to, for example, demonstrate  
19 products in brick-and-mortar stores at 685 East Betteravia Rd., Santa Maria, California,  
20 93454; and 1145 N. H Street, Suite B, Lompoc, California 93436, or to, for example,  
21 test those products, constitute acts of direct infringement of at least Claims 7 and 8 of  
22 the '690 Patent.

21 reasons, Comcast aids, instructs, supports, and otherwise acts with the intent to cause  
22 an end user to use the Accused Cable Modem Products and Accused Set Top Products  
23 to infringe at least Claims 1-4, 6, 8, and 9 of the '826 Patent.

24           352. Comcast contributes to the customers' direct infringement. Comcast  
25 provides apparatuses, namely the Accused Cable Modem Products and Accused Set  
26 Top Products, that are used by customers to directly infringe at least Claims 1-4, 6, 8,  
27 and 9 of the '826 Patent.

353. The Accused Cable Modem Products and Accused Set Top Products have no substantial noninfringing uses. When an end user uses the Accused Set Top Products to receive the Accused Services, the end user directly infringes at least Claims 1-4, 6, 8, and 9 of the '826 Patent. The Accused Cable Modem Products and Accused Set Top Products are especially made or especially adapted for use in an infringing manner.

354. Comcast's inducement of, and contribution to, the direct infringement of at least Claims 1-4, 6, 8, and 9 of the '826 Patent is continuous and ongoing through acts such as providing the Accused Cable Modem Products and Accused Set Top Products to Comcast customers, which enables those customers to receive the Accused Services; Comcast's provision of the Accused Services; and technical assistance provided by Comcast for equipment it provides to its customers in support of the provision of the Accused Services.

355. Comcast's infringement of the '826 Patent is, has been, and continues to be willful, intentional, deliberate, and/or in conscious disregard for Entropic's rights under the patent.

356. Entropic has been damaged as a result of the infringing conduct alleged above. Comcast is liable to Entropic in an amount that compensates Entropic for Comcast's infringement, which by law cannot be less than a reasonable royalty, together with interest and costs as fixed by this Court under 35 U.S.C. § 284.

357. No apparatus claims of the '826 Patent are presently asserted. Accordingly, there is no duty to mark pursuant to 35 U.S.C. § 287.

## COUNT VI

### (Infringement of the '682 Patent)

358. Entropic incorporates by reference each allegation of the paragraphs above as if fully set forth herein.

359. Entropic served infringement contentions which included a claim chart for the '682 Patent on September 15, 2023.

1           360. The '682 Patent duly issued on November 20, 2018 from an application  
2 filed January 9, 2018, an application filed February 16, 2017, an application filed  
3 August 4, 2016, an application filed July 23, 2013, and, *inter alia* a provisional  
4 application filed July 23, 2012.

5           361. Entropic owns all substantial rights, interest, and title in and to the '682  
6 Patent, including the sole and exclusive right to prosecute this action and enforce the  
7 '682 Patent against infringers and to collect damages for all relevant times.

8           362. The '682 Patent generally describes a method performed by a cable modem  
9 termination system and/or converged cable access platform, the method including  
10 determining a corresponding signal-to-noise-ratio ("SNR") related metric, assigning  
11 cable modems to service groups based on a respective corresponding SNR-related  
12 metric, generating a composite SNR-related metric based on a worst-case SNR profile,  
13 selecting a physical layer communication parameter to be used for communicating with  
14 a service group based on a composite SNR-related metric, and communicating with  
15 cable modems in the service group using the selected physical layer communication  
16 parameter. A true and accurate copy of the '682 Patent is attached hereto as Exhibit 11.

17           363. The '682 Patent is directed to patent-eligible subject matter pursuant to 35  
18 U.S.C. § 101.

19           364. The '682 Patent is valid and enforceable, and presumed as such, pursuant  
20 to 35 U.S.C. § 282.

21           365. Comcast deploys one or more of the Accused Cable Modem Products in  
22 connection with operating and providing the Accused Services.

23           366. The Accused Cable Modem Products deployed by Comcast to customer  
24 premises remain the property of Comcast while deployed.

25           367. The Accused Cable Modem Products operate while deployed in a manner  
26 controlled and intended by Comcast.

1           368. As set forth in the infringement contentions served on Comcast on  
2 September 15, 2023 (attached hereto as Exhibit 12),<sup>19</sup> Comcast has directly infringed  
3 and is infringing at least Claims 1-5 and 9 of the '682 Patent by using, importing, selling,  
4 and/or offering for sale the Accused Services.

5           369. Each aspect of the functioning of the Accused Cable Modem Products  
6 described in the claim chart operates while deployed to customer premises in a manner  
7 controlled and intended by Comcast.

8           370. Comcast provides no software, support, or other facility to customers to  
9 modify any aspect of the functioning described in the claim chart of the Accused Cable  
10 Modem Products while deployed to customer premises.

11           371. Comcast directly infringes at least Claims 1-5 and 9 of the '682 Patent by  
12 using, importing, selling, and/or offering for sale the Accused Services, which utilize  
13 cable modem termination systems and/or converged cable access platforms that  
14 communicate with the Accused Cable Modem Products (for example, the Technicolor  
15 CGM4140 cable modem).

16           372. The use of the Accused Services by Comcast to, for example, demonstrate  
17 products in brick-and-mortar stores at 685 East Betteravia Rd., Santa Maria, California,  
18 93454; and 1145 N. H Street, Suite B, Lompoc, California 93436, or to, for example,  
19 test those products, constitute acts of direct infringement of at least Claims 1-5 and 9 of  
20 the '682 Patent.

21           373. Comcast has known of or has been willfully blind to the '682 Patent since  
22 before, and no later than the date of, its acceptance of service of the original Complaint  
23 in this action on February 16, 2023.

24           374. Comcast has known of or has been willfully blind to the '682 Patent since  
25 before, and no later than the date of, its acceptance of service of the First Amended  
26 Complaint in this action on June 5, 2023.

27 \_\_\_\_\_  
28 <sup>19</sup> The original claim chart for this patent is located at DE 63.

1 375. Comcast has known of or has been willfully blind to the '682 Patent since  
2 before, and no later than the date of, its acceptance of service of Entropic's infringement  
3 contentions on September 15, 2023.

4 376. Comcast has known of or has been willfully blind to the '682 Patent no  
5 later than the day before [REDACTED]

6 377. Comcast has known of or has been willfully blind to the '682 Patent since  
7 before the August 9, 2022 communication from Entropic.

8 378. Comcast has been aware that it infringes the '682 Patent since well before,  
9 and no later than the date of, its receipt of Entropic's August 9, 2022 communication,  
10 attached as Exhibit 17. Since obtaining knowledge of the '682 Patent and its infringing  
11 activities, Comcast has failed to cease its infringing activities.

12 379. Comcast has willfully infringed the '682 Patent as evidenced by its own  
13 patents that cite to U.S. Patent No. 9,419,858 (the '858 Patent"), which is the ultimate  
14 parent of the '682 Patent. Specifically, Comcast's patents including U.S. Patent No.  
15 11,191,087; U.S. Patent No. 10,582,515; U.S. Patent No. 11,758,574 cite the '858  
16 Patent.

17 380. Comcast's reference to the '858 Patent, which is closely related to and  
18 involves similar technology and functionality as the '682 Patent, evidences Comcast's  
19 awareness that it infringes upon '682 Patent.

20 381. Further, Comcast filed an application for U.S. Patent No. 9,178,765 on July  
21 23, 2013, in the same month that the application for the '682 Patent was filed. On  
22 information and belief, Comcast was aware of the '682 Patent based on the investigation  
23 it undertook during the application and prosecution process for U.S. Patent No.  
24 9,178,765. Thus, Comcast has willfully infringed the '682 Patent since at least July 23,  
25 2013.

26 382. Comcast's infringement of the '682 Patent is, has been, and continues to  
27 be willful, intentional, deliberate, and/or in conscious disregard for Entropic's rights  
28 under the patent.

1 383. Entropic has been damaged as a result of the infringing conduct alleged  
2 above. Comcast is liable to Entropic in an amount that compensates Entropic for  
3 Comcast's infringement, which by law cannot be less than a reasonable royalty, together  
4 with interest and costs as fixed by this Court under 35 U.S.C. § 284.

5 384. No apparatus claims of the '682 Patent are presently asserted. Accordingly,  
6 there is no duty to mark pursuant to 35 U.S.C. § 287.

15 an application filed October 24, 2017, an application filed November 23, 2015, an  
16 application filed February 10, 2015, an application filed August 8, 2013, an application  
17 filed April 19, 2010, and, *inter alia* a provisional application filed April 17, 2009.

18 388. Entropic owns all substantial rights, interest, and title in and to the '866  
19 Patent, including the sole and exclusive right to prosecute this action and enforce the  
20 '866 Patent against infringers and to collect damages for all relevant times.

21 389. The '866 Patent generally describes a cable television device that digitizes  
22 an entire input signal, concurrently selects a plurality of desired channels from the  
23 digitized input signal without selecting any undesired channels, and provides the  
24 plurality of desired channels. A true and accurate copy of the '866 Patent is attached  
25 hereto as Exhibit 13.

26 390. The '866 Patent is directed to patent-eligible subject matter pursuant to 35  
27 U.S.C. § 101.

1           391. The '866 Patent is valid and enforceable, and presumed as such, pursuant  
2 to 35 U.S.C. § 282.

3           392. Comcast deploys one or more of the Accused Set Top Products in

6 remain the property of Comcast while deployed.

7           394. The Accused Set Top Products operate while deployed in a manner  
8 controlled and intended by Comcast.

9           395. As set forth in the infringement contentions served on Comcast on  
10 September 15, 2023 (attached hereto as Exhibit 14),<sup>20</sup> Comcast has directly infringed  
11 and is infringing at least Claims 27, 28, 33, 36, 37, 41, 42, 47, 50, and 51 of the '866  
12 Patent by using, importing, selling, and/or offering for sale the Accused Set Top  
13 Products and/or the Accused Services.

14           396. Each aspect of the functioning of the Accused Set Top Products described  
15 in the claim chart operates while deployed to customer premises in a manner controlled  
16 and intended by Comcast.

17           397. Comcast provides no software, support, or other facility to customers to  
18 modify any aspect of the functioning described in the claim chart of the Accused Set  
19 Top Products while deployed to customer premises.

20           398. Comcast directly infringes at least Claims 27, 28, 33, 36, 37, 41, 42, 47,  
21 50, and 51 of the '866 Patent by using, importing, selling, and/or offering for sale the  
22 Accused Set Top Products (for example, the Arris AX013ANM STB) and/or the  
23 Accused Services (for example, digitizing and selecting desired television channels

4 400. Comcast has known of or has been willfully blind to the '866 Patent since
